# APM Restoration & Maintenance Center

A concept model of how the new APM Restoration and Maintenance Center will appear

"What Keeps 'em Flying?"

"Keep The Antiques Flying!" But, how? To maintain something that first flew 80 years ago is more than a challenge. It's a passion. Plus, it takes expertise and a place to work. The APM's Restoration Center at Antique Airfield will help meet those needs, thanks, in part, to a generous contribution by AAA Lifetime member, Jim Miller. During the recent AAA/APM Invitational Fly-in, Jim helped AAA Executive Director, Brent Taylor and APM President, Mike Gretz, turn the first shovels full of dirt for the new center.

Jim Miller's contribution alone isn't enough. Further contributions are being received through the APM's "Buy-a-Foot" campaign. Contributors buy a square foot of the future Restoration Center's floor for $25. In exchange benefactors are named **Antique Airfield Ambassadors**. But wait, there's more! As an ambassador, you'll also receive a deed to your unrecorded plot/square foot. You can't build on it or claim mineral rights, but you can claim bragging rights when you see a museum aircraft being refurbished on your space.

To date, the campaign, including Jim Miller's seed money, has brought in almost $30,000 plus pledges for building materials. But more is needed. To stake your claim in the future of the APM Restoration Center use the attached form or simply send a check or money order (for as many square feet as you choose) payable to: APM Restoration Center, c/o Air Power Museum 22001 Bluegrass Rd., Ottumwa, IA 52501

Paul Berge
AAA National Director

Brent Taylor
AAA Executive Director & APM Treasurer

Yes, I want to become an ***Antique Airfield Ambassador*** and
<u>"Buy a Foot"</u> to help build the APM Restoration and Maintenance Center !!

Name: ....

Address: ....

City: ....   State: ....   Zip: ....

Name (s) on Deed of Trust: ....
(Note: You certainly are welcome to purchase more than one foot)

<u>Quantity ($25 per each sq. ft)</u>..   ____ x $25

<u>Total Enclosed:</u> .... $_____
